FEAT GROUP S.p.A. states that material hereby certified is in compliance with the quality and technical requirements as described in the customer's order, or FEAT's approval/disapproval.

- 1 - The results of chemical analysis is a true and correct copy of the full certificate issued by the manufacturer of the steel employed or by the laboratory which has determined it.
- 2 - This certificate is issued on the basis of the results of the analysis of the material, and does not constitute a warranty or any of its components, or with any other process, or any other condition, or any other circumstance, during the manufacturing process, independent of the scope.
